SETTLE NETWORK

“Population imbalances in Europe”¹

2022

¹ This activity is part of an ERASMUS+ entitled: “Population imbalances in Europe: challenges of urban concentration versus rural depopulation” (SETTLE). Project Number 620414-EPP-1-2020-1-ES-EPPJMO-PROJECT, granted on competitive call by the European Commission.

INTRODUCTION

SETTLE Conference is an ERASMUS+project activity that was open to researchers, academics, graduate students, public authorities, and professionals. It was held on 27, 28 and 29 April 2022 at the University of Alcalá. <https://iaes.uah.es/es/transferencia-de-conocimiento/otras-actividades-de-transferencia/>

As part of the ERASMUS+ project "Population imbalances in Europe: challenges of urban concentration versus rural depopulation" (SETTLE) the Settle Network will be created. This network will be a meeting point for interaction between academics, professionals, and civil society to share knowledge and information (events, publications, etc.). Network also aims to create synergies from this collaboration that will lead to the articulation of new projects.

Which involves participation in the network?

All participants can send communications to be disseminated to all Settle Network members and published on the Settle website.

The ultimate objectives of Settle network are to obtain stable and continuous interactions between participants; to enable the emergence/birth of joint projects; dissemination and promotion of academic activities; preparation of proposals for research projects and/or teaching; training and specialization of participants.

BRIEF PRESENTATION:

Miquel's applied research interests span the fields of regional science and economics, adopting a sustainability perspective. Topics include urban growth and congestion, residential mobility, territorial disparities and dynamics, agri-environmental innovation, and rural renewal. In his papers, he uses both spatial methods to capture socio-geographical effects, and modern econometric techniques to infer causality.

BRIEF PRESENTATION:

The research group of Territorial Economic Analysis (GRAET) of the University of Alcalá is inserted within the University Institute of Social Economic Analysis (IAES). The most important line of work developed by the group is the study of convergence and structural change. The microeconomic and the asset-based approaches as central issues to explain the uneven growth of the territories using micro-data. Other contributions: urban approaches and changes; the role of universities in territorial development; the analysis of local and regional impacts of economic activities. It is remarkable the EU regional policies evaluation for EU and National Authorities.

BRIEF PRESENTATION:

Claudia Anamaria Iov, PhD. in Geopolitics, International Relations and European Studies, is Lecturer at the Department of International Studies and Contemporary History of Babes-Bolyai University, Cluj-Napoca. She teaches courses on European security, National and ethnic minority issues, Diplomatic protocol and etiquette, Societal security, Leadership and team management. Since 2018 she is a member of the European Doctoral School on the Common Security and Defense Policy, at the European Security and Defense College (ESDC), Brussels. She is the author of several studies, articles and books on European security, minorities and migration. Among her latest books is worth mentioned Rethinking (In)Security in the European Union, The Migration-Identity-Security Nexus (2020).

Since 2014, she has been organizing the International Conference Migration Dynamics and New Trends in European (In) Security, now at its ninth edition, thus becoming a tradition at Babeș-Bolyai University, bringing together world-class specialists, professors, young researchers and students. The event promotes the exchange of good practices, expertise and know-how between specialists from Europe, Asia and the United States in the field of migration, governance, security and social integration through a cross-disciplinary conference.

A good part of the international extracurricular activity that Mrs. Iov carries out is closely linked to the Jean Monnet projects, funded by the Erasmus + Program. In 2018 she became Academic Coordinator of Jean Monnet Project Building A Better Future - Learning EUrope @ School: Education for Democracy, Security, Diversity and a World of Youth and since 2020 is Module Leader of Jean Monnet Module Quo Vadis Europe?
